

Software Engineer Intern (Part-Time, Temporary Position (3 months))

JOB DESCRIPTION

Summary

The software engineer intern will assist in programming on software development projects. Attend technical status meetings on an as needed basis. Maintain accurate and complete project documentation. Abide by all safety procedures outlined by the company.

The applicant MUST have the following qualifications:

- Pursuing a Bachelor's degree in a relevant engineering, information systems or computer science field.
- University training or experience working in C or C++ programming languages.
- Familiar with Microsoft Office tools: Project, Word, Excel, and PowerPoint.
- Good verbal and written communication skills.
- Strong problem-solving skills and troubleshooting skills with attention to detail.
- Self-starter with the ability to work from verbal and written instructions.
- U.S. Citizenship is required.

Work Environment

This job operates in a professional office environment, but in a manufacturing company. This role uses standard office equipment such as computers, phones, photocopiers, scanners, filing cabinets and fax machines.

Position Type/Expected Hours of Work

This is a temporary (3 months) position with a minimum of 24 hours per week.
